We invited the best trainers and experts to collaborate—individuals with high levels of competence and empathy.

Although the general atmosphere was “post-flood,” everything turned out great—the participants, over 100 people, had a fantastic time.

The audience's hearts were stolen by Integra, a group from the Rozbark Theatre in Bytom.

Numerous organizations supporting people with disabilities, as well as individuals, came to the Nysa Vocational Activity Center (ZAZ) to watch the performances and participate in the workshops.

The wonderful refreshments were prepared by the ladies from the Rural Women's Circle in the village of Łąka Prudnicka. Despite hosting far more than the originally planned 300 guests, there were plenty of delicious treats for everyone..

Workshops, activities,
and performances
—there was something for everyone.

We hosted people with disabilities
from both the Nysa and Prudnik
districts. We hope this won't be
the last meeting of its kind—see
you next time!
